

LAKSHMI PRIYANKA BETHAMPUDI

+91 7386715124 • lakshmipriyanakabethampudi.23@gmail.com • Vijayawada, Andhra Pradesh

SUMMARY

Proficient in Java and Python with strong command over Data Structures, Algorithms, and System Design. Experienced in deploying multi-region Kubernetes clusters, building event-driven pipelines with Kafka, and developing full-stack web applications with CI/CD pipelines using Jenkins, Docker, Ansible, and AWS EC2.

EDUCATION

B.Tech (Pursuing)	Aditya College of Engineering and Technology	CGPA: 8.89
Intermediate (2023)	Sri Akshara College	CGPA: 9.64
Schooling (2021)	Sri Akshara Techno School	CGPA: 9.90

TECHNICAL SKILLS

Languages:	Python, Java, C, SQL
Web & Templates:	HTML, CSS, Thymeleaf
Cloud & DevOps:	AWS (EC2, Lambda, S3, DynamoDB, EKS, Route 53), Docker, Kubernetes, Istio, Jenkins, Ansible
Backend:	Spring Boot, Spring Security, Node.js, Express, Kafka, REST APIs
Databases:	MySQL, MongoDB, DynamoDB
Tools:	Git, GitHub, Maven, SonarQube, VS Code, Jupyter, Eclipse

PROJECTS

EduPulse – Faculty Feedback System | *Full Stack | DevOps*

- Built a multi-role web app (Student / Staff / Principal) using **Spring Boot 3.2**, **Spring Security**, **MySQL & Thymeleaf** for anonymous faculty performance tracking across departments and semesters.
- Implemented session-token duplicate-submission prevention and a 5-criteria rating engine (Teaching, Knowledge, Communication, Punctuality, Support).
- Containerized with **Docker** (multi-stage build), deployed to **AWS EC2** via **Ansible**; built a full **Jenkins CI/CD pipeline** with GitHub SCM, Maven build, and SonarQube quality gates.
- Event-Driven Order Processing System | *Backend***
- Built an asynchronous order processing pipeline using Kafka message queues – decoupling order creation, payment, inventory services.
- Handled duplicate orders and out-of-order events with idempotency and dead-letter queues for fault tolerance.
- Core Technologies: Kafka, Node.js, MongoDB, Docker

Multi-Region Kubernetes Platform | *Cloud Native*

- Deployed a highly available Kubernetes cluster across multiple geographic regions with automated failover and Istio service mesh.
- Implemented cross-region load balancing and health checks, achieving 99.9% uptime during simulated region failures.
- Core Technologies: Kubernetes, Docker, Istio, AWS EKS

INTERNSHIP

Cloud Computing Intern — APSSDC (Andhra Pradesh State Skill Development Corporation) | *May 2025 – Jul 2025*

- Completed hands-on virtual training in Cloud Computing and DevOps; delivered assigned projects on time through structured weekly milestones.

CERTIFICATIONS

- NPTEL – Internet of Things (IoT)
- Google Cloud – Generative AI Leader Track
- IBM – Generative AI Professional Certificate

SOFT SKILLS

- Team Collaboration
- Problem Solving
- Communication
- Adaptability
- Time Management
- Creativity
